DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 14-25 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Independent claim 14 discloses a patentable distinct apparatus from the one disclosed on previously presented independent claims 1 and 11 and independent claim 22 is drawn to a method for monitoring a process which is also patentable distinct from the original claims; the newly presented claims also belong in different classes and their examination would present a serious burden on the Examiner. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-25 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

2. Claims 1, 3 and 5-13 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record either in single or in combination failed to anticipate or render obvious the limitations of disclosing a ROM operatively configured for storing a

keyword that authorizes a read of the measured data as required by independent claims 1 and 11.

Conclusion

4. This application is in condition for allowance except for the following formal matters indicated above in paragraph 1.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
